

EMBEDDED LIFT DISPLAY

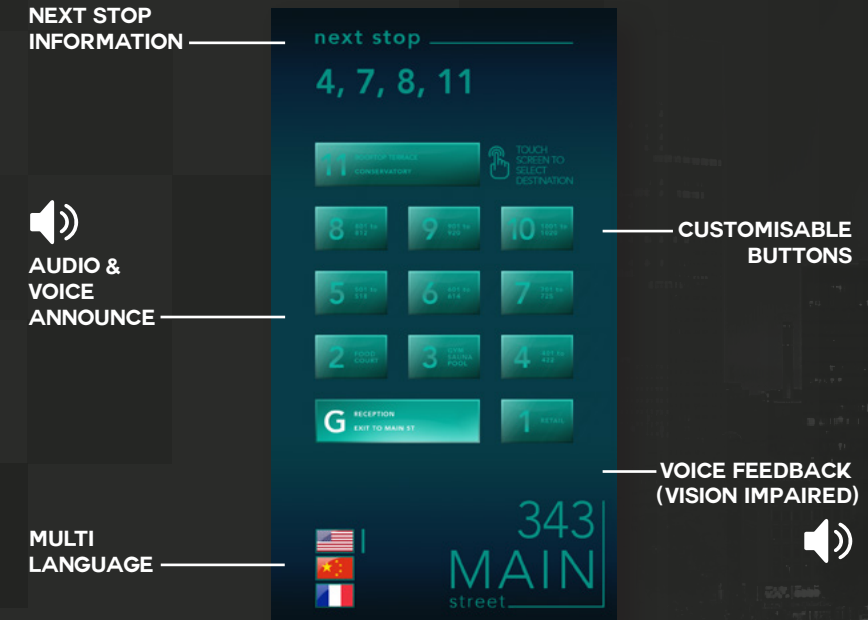

THE NEXT GENERATION OF LIFT DISPLAYS IS HERE

The OPAL range provides a colourful and informative interface compared to conventional elevator indicators enabling opportunities to promote tenants, building information, events, news and advertising.

Our Australian made motherboards and software have been designed specifically for the lift industry, offering long term reliability - service and support is also provided for 10 years from date of purchase.

The user friendly software allows the owner to easily configure and update the display layouts via a building network or USB, while HDMI output offers the option of external connectivity to larger format screens such as foyer displays and digital directory boards.

- ▲ Slim design, high contrast LED screen with wide viewing angle
- ▲ High speed networking solutions for all applications
- ▲ Update & retrieve content via network or USB
- ▲ Portrait or landscape mounting with dual screen capability
- ▲ Image slideshow, video playback & dynamic media
- ▲ Tenant information, text & logos
- ▲ Audio, voice annunciation & multilingual capability
- ▲ Time, date & weather sync
- ▲ Low power consumption & auto-sleep mode
- ▲ Multilingual

OPAL PLUS

The OPAL Plus lift screen is the complete solution for anyone looking to maximise the potential of a lift screen in their building. Bright, colourful, eye-catching display grab the users attention and boost the scope for promoting as well as informing.

SCREEN OPTIONS

10.4"/15"	1024 x 768
12.1"	800 x 600
19"	1280 x 1024
15.6"/18.5"/21.5"	1920 x 1080

 TIME & DATE SYNC	 TENANT TEXT & LOGO	 IMAGE SLIDESHOW	 POSITION INDICATOR	 LIFT STATUS MESSAGES	 VOICE ANNOUNCE
 RSS FEEDS	 WEATHER	 HDMI OUTPUT	 DYNAMIC MEDIA	 MOVING OR STATIC ARROW	 FACE-TO-FACE INTERCOM
 LIFT AUDIO & MUSIC	 SLEEP MODE	 PORTRAIT OR LANDSCAPE	 USB CONTENT UPLOAD	 SCHEDULE CONTENT	

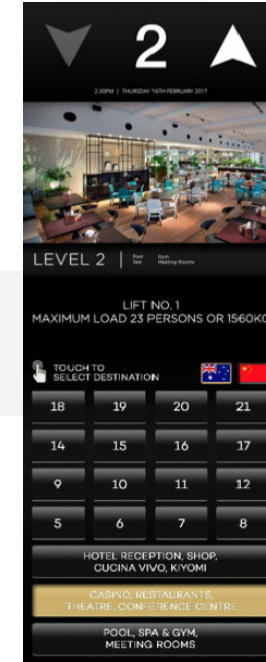

The OPAL Touch display shares all the great features of the OPAL Plus with the addition of touch screen capabilities. Developed to comply with an elevator environment, this touch technology maintains a flush mount finish and is sensitive enough to respond to a gloved hand.

The display also caters to vision impaired patrons through its ability to accept commands from a conventional button that can activate voice prompts to assist with floor selection - a feature that has been certified to be used in public buildings.

In addition to that is a touch-screen keypad option, customisable buttons that can include text and tenant information and an active / passive mode for switching between normal operation, dynamic media, hidden buttons and more.

OPAL TOUCH

TOUCH SCREEN KEYPAD WITH NEXT STOP INFORMATION 	CUSTOMISABLE BUTTONS 	VOICE FEEDBACK FOR THE VISION IMPAIRED 	DYNAMIC BUTTON CONTROL
